SIGs: Industry taking the lead

For more details of each SIG, see our website www.cambridgewireless.co.uk/sigs

Who are we?

A leading industry forum and vibrant wireless community enabling like-minded companies in the wireless sector to network and debate the latest developments in the industry, and find commercial opportunities for mutual collaboration.

With a rapidly growing member base of about 300 companies, and strong links with academia and international partnerships, Cambridge Wireless can bring real competitive advantage to your company.

What do we offer?

Membership offers a wealth of benefits including highly exclusive networking events and business introductions. Our Special Interest Group (SIG) programme is designed with the help of our SIG champions to keep members fully up to date with the latest developments and assist in exploring new business opportunities.

We engage with innovative partners to help you validate and develop new business initiatives. We also offer Talent Recruitment services to connect highly experienced personnel with member companies. In support of start-ups we are running 'Discovering Start-Ups'. For more information please visit our website.

Member Benefits

Founder Members

- ✓ Attend high level networking dinners with the opportunity to invite business guests
- ✓ Support business development activities (e.g. Business introductions)
- ✓ Unlimited SIG participation (usually £250 + VAT to attend a full day event)
- ✓ Attend 1-2 VIP meetings
- ✓ Initiate Special Interest Groups
- ✓ Publish company profile on website - extend your marketing activities!
- ✓ Advertise job vacancies to a niche market!

Associate Members

- ✓ Unlimited participation in SIGs free of charge (usually £250 + VAT for a full day event)
- ✓ Member Information page on Cambridge Wireless website

SIG

Academic Industry

Champions

Dr Ian Wassell, *The Wireless and Communication Team, University of Cambridge*, David Roberts, *Ogma Solutions*, Alex Butler, *Microsoft Research*, Gordon Aspin, *Cognovo*, Claudio Marinelli, *Nokia Corporation*

Location Based Systems/Services

David Bartlett, *Omnisense*, Nigel Wall *Shadow Creek*, Andrew Matthews, *Nokia Research Centre*

Mobile Broadband
