

Who we are

Analysys Mason is a global strategy consultancy and research firm specialising in telecoms, media and technology (TMT).

In the last 30 years, we have worked with the main players in the market, becoming an influential and recognised entity in the industry. Our work has an impact not only on our clients' strategies, but also on local governments and regulators who we advise on key industry policies.

Based from 16 offices in 11 countries, our Consultants and Analysts work in more than 110 countries, making Analysys Mason a truly global company.

What we do

We give strategic advice and produce quality analysis for mobile and fixed operators, internet players, regulators, financial institutions, cable or satellite companies, content and media players, government, lawyers, postal industry stakeholders, satellite companies and vendors.

Analysys Mason is recognised as an influential partner for clients around the globe on all aspects of strategy planning, regulation work and transactional support.

We operate a global staffing model. It means that our Consultants are part of one global pool of experts, working internationally from their local office.

The opportunity in London

We are looking for a **German speaking** strategy Associate Consultant to join our expanding global pool of Consultants, based in London.

As an Associate Consultant, you will have a direct involvement in the delivery of client strategic projects. The nature of our projects is extremely varied, including strategy design, due diligence analysis or regulatory work. They vary in size and can be short, and you will work on a wide range of them, leading to a steep learning curve.

As a German speaker, you will become the go-to person for projects covering the DACH region, ultimately getting an influential role when working with German speaking clients.

You will also be involved in bid proposals and initiatives under the guidance of a more senior consultant.

As you develop your skills, you will become increasingly responsible for managing your own work streams as well as providing guidance to more junior consultants.

Our network of global offices operates a global staffing policy, offering a truly international exposure, while providing local expertise. As an Associate Consultant, you will work alongside Partners and Managers, getting hands-on training, developing at a fast pace. You will soon become an industry expert.

Skills and experience

You are studying Engineering, Mathematics, Economics or other Scientific courses. We do consider any disciplines.

We are looking for numerical skills, critical thinking and problem-solving skills. You also can convey your ideas effectively, orally or in writing and you are a good team player.

You have a commercial sense and you can illustrate your interest for the TMT industry.

What we offer

At Analysys Mason, you will work alongside renowned industry experts on key projects.

We offer a clearly defined career path guided by our first-class 3-week initial training and our supplementary training sessions, up to Partner level.

Our established international locations will provide critical global exposure, as well as an opportunity to build and enhance your learning & development.

Our benefits package includes a company pension scheme, life insurance, private healthcare, a buddy scheme, minimum 25 days holiday and local usual benefits.
