<b>Job Description</b>			

**ROLE AND RESPONSIBILITIES**

An exciting opportunity has arisen to join a disruptive start-up in the Internet of Things, "Iotic-labs"  
 We are expanding our development team to continue to develop and evolve our IoT Mash-app platform.  
 We are looking for an energetic and experienced web UI/UX developer who has a strong background designing and creating dynamic, modern web applications. Wider experience of Open-Source Software, LAMP Stack and other web technologies are an advantage. A track record in testing UIs would also be an advantage. Must be creative, self-motivated and relish working in unstructured, loosely-managed start-up environment.

Core Responsibilities:

- Implementing the UI/UX in our core products
- Continuous integration and testing the UI elements

**QUALIFICATIONS AND EDUCATION REQUIREMENTS**

- Relevant University Degree 2:1 or above or;
- At least 3 years' experience within the IT sector.

**PREFERRED SKILLS**

The ideal candidate will have a development background with a good history user interface and user experience design and development. Experience of UI testing frameworks would be an advantage as would OSS, LAMP and other web technologies.

The ideal candidate would have the following skills and experience:

- UI design and implementation
- HTML5 + JavaScript
- CSS and related tools
- PHP
- Testing frameworks such as Selenium
- Web Services JSON/REST APIs
- JavaScript libraries such as JQuery and Bootstrap
- Linux / Unix
- Version Control Systems – Specifically Git

The following skills are desirable, but not essential:

- IoT
- Databases, SQL and no-SQL
- M2M protocols (such as CoAP, MQTT and oneM2M)
- Python
- Exposure to Agile development methodologies

#### **ABOUT IOTIC-LABS**

Iotic-labs is a new, disruptive and innovative start-up spun out from the leading the M2M platform and mobile data connectivity provider, Arkessa. This is a rare opportunity to join the team at a very early stage while we're still developing the core platform software and the concept.

#### **APPLICATION INSTRUCTIONS**

Please provide a full CV and covering letter to [jobs@iotic-labs.com](mailto:jobs@iotic-labs.com)
