## Speaker Profile: Andrew Palmer, Consulting Director, CGI

### ***'Breaking Barriers - Moving 5G beyond theory into Implementation'***

Andrew has 30 years of experience in IT, Telecoms and TV & Media, having worked in various roles for IBM, AT&T, Ericsson, Motorola and Arris.

His present role is to leverage existing CGI capabilities that match the needs of our clients in the Telecoms sector, as well as building new capabilities that will support the emerging and changing needs of our client base. Andrew has proven experience in developing and delivering complex SI & Services solutions that meet both business and technology needs, his primary focus is 5G, IoT and the enablers required to bring them to the mass market.

## Profile of Dinner Sponsor

Founded in 1976, CGI is one of the largest IT and business consulting services firms in the world. Operating in hundreds of locations across the globe, CGI professionals help clients to achieve their goals, including becoming customer-centric digital organizations. We deliver an end-to-end portfolio of capabilities, from high-end IT and business consulting to systems integration, outsourcing services and intellectual property solutions that help accelerate clients' results. CGI works with clients around the world through a unique client proximity model complemented by a global delivery center of excellence network to help clients accelerate results, transform their organizations and drive competitive advantage.

## Profile of Drinks Reception Sponsor

Magna is a leading global automotive supplier with 327 manufacturing operations and 100 product development, engineering and sales centers in 29 countries. Magna has over 161,000 employees focused on delivering superior value to its customers through Innovation and World Class Manufacturing and Processes. At Magna, we take great ideas and develop them from invention to commercialization. We also know that great thinking happens outside our four walls, and that our ability to commercialise great ideas benefits inventors, founders, entrepreneurs, customers, and ultimately all who share the road.

## Peterhouse

Peterhouse is the oldest of the Cambridge colleges, founded by Hugo de Balsham, Bishop of Ely in 1284 and granted its charter by King Edward I.

As a charitable institution dedicated to education and research, the College has made its own distinctive contribution to society for over 700 years, surviving the Reformation, Civil War and the upheavals of every century since. It remains the smallest college in terms of number of Fellows and students.

Throughout its history, Petreans have been at the heart of the political, social and religious controversies that have shaped society. The computer takes its inspiration from Charles Babbage. Lord Kelvin brought electric light to the College second only to the Houses of Parliament, to mark Peterhouse's 600th anniversary in 1884. Sir Frank Whittle and Sir Christopher Cockerell gave the world the jet engine and the hovercraft.

## New Founder Members joining us tonight

### **Ablett & Stebbing - *David Taylor***

Ablett & Sterling are patent and trade mark attorneys with offices in London and Dundee. We are a multidisciplinary team of IP specialists representing a diverse range of clients worldwide.
