

MAKING  
COMMUNICATIONS  
WORK FOR  
**EVERYONE**

# What is the Online Safety Regulators role in Security, Identity and Privacy?

Oct 2022

Dr Fred Langford, Director of Trust & Safety Technology, Ofcom

[Fred.langford@ofcom.org.uk](mailto:Fred.langford@ofcom.org.uk)

making communications work  
for everyone

## Who are Ofcom?

**Communications regulator** – TV, Radio, VoD, VSP, fixed line telecoms, mobiles, post, spectrum (auctions) and shortly Online (safety)

## Online Safety Bill –

- Codes of Practice
- Risk and mitigation
- Transparency
- Systems and processes

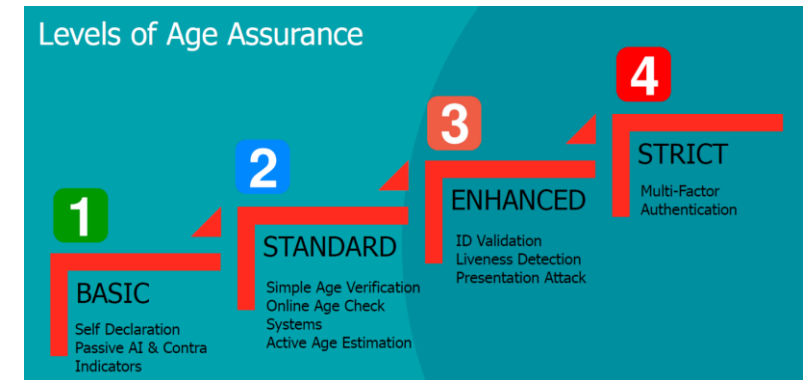

## Human elements of security, identity and privacy (OSBill)

Security = Being safe online (Safety by Design)

Identity = Age Assurance/Age Verification

Privacy = Freedom of expression & protecting processing of personal data

- Understand the 'art of the possible' technically;
- Messaging, online gaming, social media, search,
- virtual and extended reality etc
- (AA/AV, privacy) – where, how, who?
- Should regulation be based upon standards or best practice?

**Make the UK the safest place in the world to be online while defending free expression**

Thank you

Dr Fred Langford
